LOGGING IN TO SKYWARD FAMILY ACCESS

IMPORTANT: To access Skyward, **you must first provide your email address to your student's school**. If you have not done so already, please reach out to school staff to add or update your email address. Once you have completed that, move on to step one.
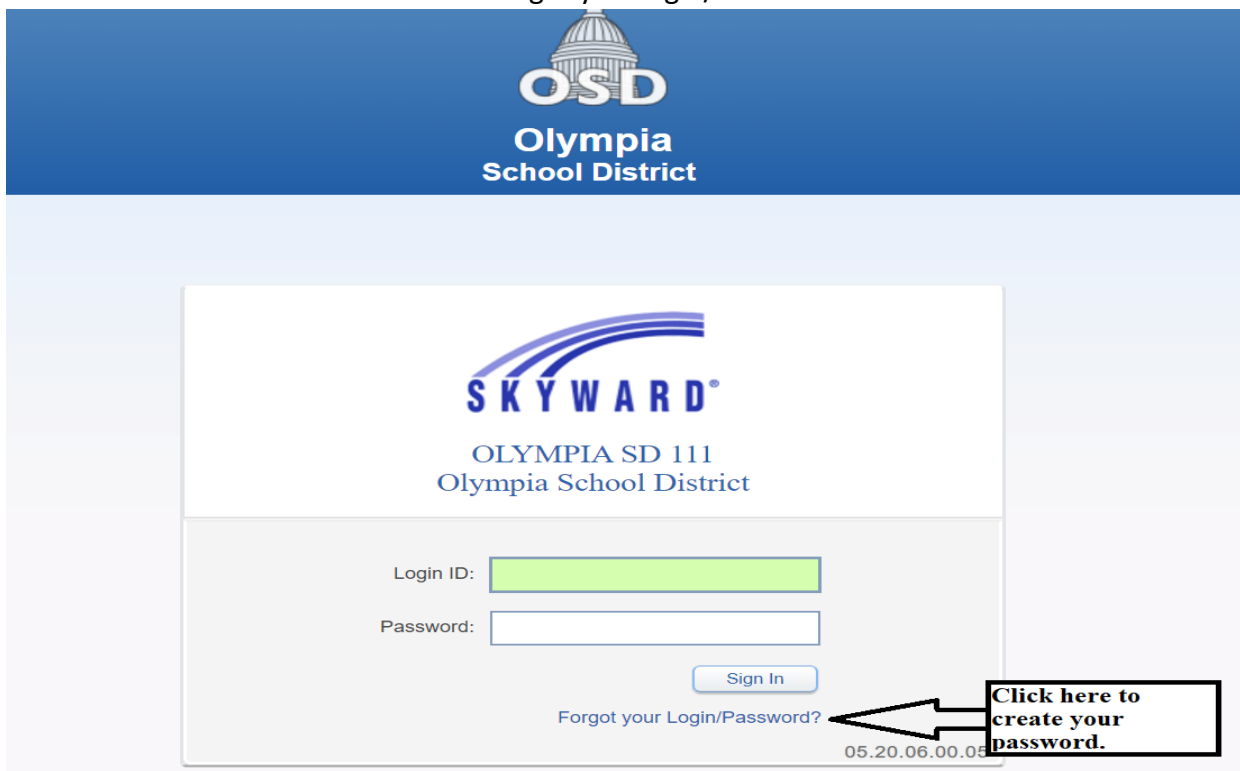

Step One:

After you have provided your email address to the school, go to the school or district website, locate and click the Skyward icon.

Step Two:

Click on the blue link that is labeled "Forgot you Login/Password?"

Step Three:

Enter your email address and then click "Submit." If the email you enter matches the email that you have provided to the school, then you will receive an email that contains your login and a link to reset your password. Please follow the instructions in the email to complete the setup of your account.

If you do not see the email in your inbox, please check your spam folder. If you do not find it there, please contact your student's school to make sure your email address is up to date.
