News from the CHS Library

By the time you read this, two great things will have happened:

#1 – 97% of the freshmen will have been trained on how to do great research by creating their own essential question, citing their variety of sources in MLA format and synthesizing their research into a paper or debate case. Ask them what a database is, or how they know a website is credible. These are skills we review every year in various curricular areas.

#2 – CHS teachers will have attended a training day on using technology to differentiate their instruction for students. Our teachers are working hard to meet individual students' needs and web 2.0 tools are being implemented into research assignments across the board that offer flexibility and motivation. Ask your student what cool tech tool they've used recently and have them teach you!

Lastly, a thankful shout-out to the Buckley family for their generous support of the library this year. THANK YOU!!!

All remaining **Traffic Safety** classes for the 2011-2012 school year are full. However, if there is enough interest we will open up a **second** summer session in late July. The cost will be \$385 and class will meet Monday through Thursday, 9:00 a.m. to 11:00 a.m. Contact Rachel Beard at 360-5968015 or rbeard@osd.wednet.edu to put your student's name on the class list.
